EDUCATION

Banaras Hindu University	Varanasi, UP	Nov 2022 – July 2024
• M.Sc in Mathematics in Computing, First Class , GPA: 8.15 • Post Graduate Coursework: Deep learning, Artificial Intelligence, Theory of Computation, Machine Learning, Relational Algebra, Topology, Graph Theory		
Patna Womens College	Patna, Bihar	Aug 2019 – July 2022
• Bachelor of Science in Mathematics, First Class Graduate (Honors) with Distinction, GPA: 9.09 • Graduate Coursework: Algebra, Differential Geometry, Programming in Matlab		
DAV Public School	Sindri, Dhanbad	April 2018 – March 2019
• Intermediate (Science) , First Class Passout in Physics, Chemistry, Mathematics, Physical Education and English, Percentage: 86%		
DAV Public School	Sindri, Dhanbad	April 2016 – March 2017
• Higher Secondary, CGPA: 10		

EMPLOYMENT

Chegg Subject Matter Expert	Chegg India Private Limited, India	Oct 2023 - Present
• Utilized strong research and analytical skills to address diverse academic queries. • Assisted students globally in understanding complex concepts in Computer Science and Mathematics through online tutoring and Q&A sessions.		

LANGUAGES AND TECHNOLOGIES

- **Language:** C, Python, Matlab
- **Technology:** Data Science, Machine Learning, Deep Learning, Jupyter, Big Data

TECHNICAL EXPERIENCE

IISER TVM	Thiruvananthapuram, Kerala, India	August 2025 - Present
• Image Processing Worked on image preprocessing, feature extraction, and enhancement techniques using Python libraries such as OpenCV and NumPy. • Data Science Applied statistical analysis and machine learning algorithms to analyze datasets, perform data cleaning, and derive actionable insights. • Deep Learning Explored CNN-based models for image classification and object detection tasks, improving model accuracy through hyperparameter tuning. • Data Visualization Utilized tools like Matplotlib and Seaborn to visualize complex data patterns and support decision-making.		

Internship

- **AI Data Scientist Course** 6 Month Applied Data Scientist Course conducted by BHU and MeitY.

- **Department of Science and Technology India - Workshop on Machine Learning** Attended Workshop and Hands-on-Programme on Machine Learning organized by DST India in Banasthali University.

Projects

- **Sentiment analysis for online troll using Hadoop** Developed a scalable sentiment analysis system using Hadoop to identify and classify online trolling behavior from large-scale social media data.
- **Chilli Thrips Detection and Prevention Using Deep Learning** Developed an innovative Deep Learning model for Chilli Thrips Detection and Prevention, creating a custom dataset by capturing field images to enhance accuracy and reliability.
- **Future Diabetes Prediction** Developed and implemented a Decision Tree classifier to predict future chances of diabetes based on lifestyle and medical data; achieved a 90% accuracy rate on test data, enabling early intervention for at-risk individuals.
- **Road Accident Severity Prediction** Developed a predictive model for Road Accident Severity using machine learning algorithms, aiming to improve traffic safety and reduce fatalities through data-driven insights.

ACHIEVEMENTS AND CERTIFICATES

- **UGC NET December 2023** Cleared UGC NET December 2023 in Computer Science in first attempt.
- **Applied Data Scientist** Certified in Applied Data Science (6 months) by MeitY-NASSCOM at BHU, specializing in cutting-edge analytics and AI techniques.
- **Department of Science and Technology India - Workshop on Machine Learning** Completed a Machine Learning Workshop with hands-on training by DST India at Banasthali University
